<b>Office Action Summary</b>	<b>Application No.</b> 09/575,181	<b>Applicant(s)</b> LAPSTUN ET AL.	
	<b>Examiner</b> Lalita M. Hamilton	<b>Art Unit</b> 3691	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

### **DETAILED ACTION**

This action is in response to the response filed on February 16, 2009.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 8-23, 25-31, 36-46, and 48 are rejected under 35 U.S.C. 102(b) as being anticipated by Wellner (5,640,193), as set forth in the previous Office Action.

#### ***Response to Arguments***

Applicant's arguments filed February 16, 2009 have been fully considered but they are not persuasive. The Applicant argues that Wellner does not disclose "indicating data . . . indicative of a position of a nib of the pen relative to the form"; position of the computed using a perspective distortion observed on an imaged tag and known geometry of pen optics; or how nib positions on a page may be determined with high accuracy. In response, Wellner discloses "indicating data . . . indicative of a position of a nib of the pen relative to the form." Wellner discloses the following:

In step 302, the user swipes the paper with the pen 11, which senses marks on the paper. In step 302a, the pen 11 may optionally store the mark information for later transmission to interface 15. In step 303, as previously described, these marks may be interpreted within the pen 11 before the information is transmitted to interface 15 or, to reduce the cost of the pen, the pen 11 may send raw scanning information to the interface 15 for processing. In step 304, interface 15 interprets the received

Art Unit: 3691

information and may provide audio or visual feedback to the user. Interface 15 may also provide feedback to an audible transducer of pen 11 to indicate that it has received the scanning information. In step 305, the interface 15 communicates interpreted scanned data to a server via network 14, along with information that identifies itself and, optionally, pen 11.

Wellner discloses that the optical pen is used to scan information that it senses on the page and transmit this information to a server for processing.

With regard to the argument that Wellner does not disclose the position of the computed using a perspective distortion observed on an imaged tag and known geometry of pen optics or how nib positions on a page may be determined with high accuracy, the Applicant's argument is narrower than what is claimed. The Applicant has not specifically claimed these features. There has only be reference to the location in the specification.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3691

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
